

CoatPro XD

Coating thickness distribution measurement.
Unlock the big picture - more insight, less time.

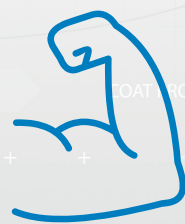

High precision thermography with sub-mm lateral resolution and flexible configuration, enabled by a highly-modular design.

AIM SYSTEMS FOR BETTER COATING

Immediate detection of deviations
Measuring on all coating systems
Safety first, use of LED-Light

- + Safe technology
- + Easy connection
- + 5 min calibration
- + Low maintenance

COATPRO

- + Robust design
- + Inline-suitable
- + Robot-suitable
- + High modularity

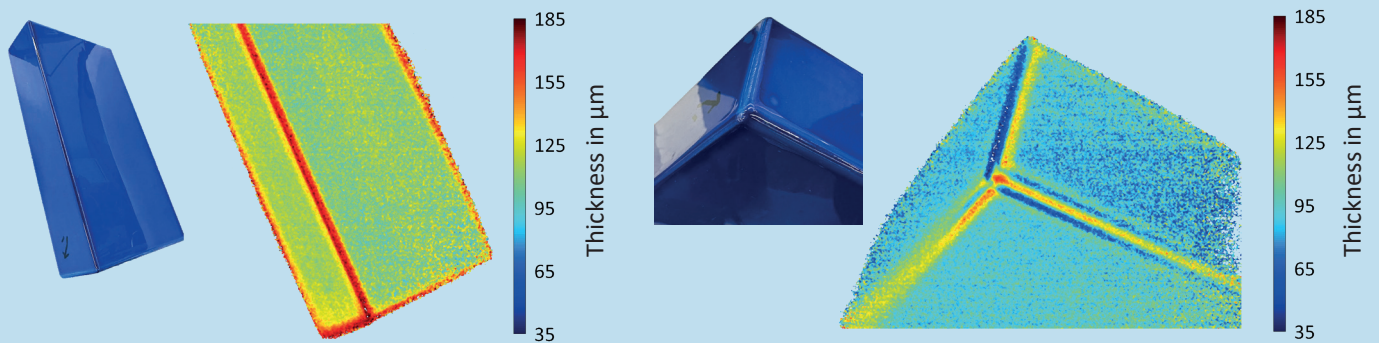

NON-CONTACT COATING
THICKNESS MEASUREMENT

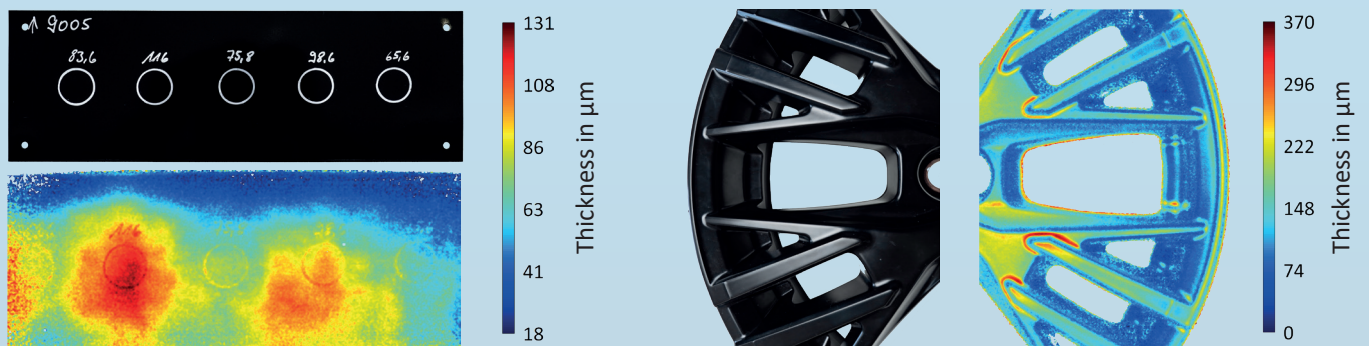

- + Quality control
- + Digital twin
- + Audit preparation
- + Process automation

Use cases

Insulation coating on battery cases

Powder coating on complex geometries
